This year we are growing more Begonias than ever before, being the largest Begonia growers in the world of the following varieties. This branch of our business has been built up on the quality of the goods we have delivered to our customers. We desire that each and every Begonia grower send us his order, or at least a share of it, for comparison's sake.

150,000 NEPHROLEPIS (in variety)

We are the largest growers of Nephrolepis Ferns in the country in the following varieties; in fact, we are the headquarters for them. The demand increases each year, and it is our aim to have every variety of Nephrolepis, in every size, every day in the year.

NEW NEPHROLEPIS—JOHN WANAMAKER

“THE WANAMAKER BOSTON FERN”

We will introduce the above fern in August, 1915. In presenting this fern to the trade, we feel confident that it will make a place for itself.

A “sport” from Nephrolepis Scholzelii, with longer, narrower, gracefully drooping fronds. It is not so compact in growth as Scholzelii, and therefore, does not decay in the center, and is a durable house fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other Nephrolepis.

Strong plants from 2¼-inch pots—for delivery in August. \$3 per doz.; \$20 per 100; \$150 per 1,000.

The following ready for delivery October 1st: 4-inch pots, \$50 per 100; 6-inch pots, \$1 each; 8-inch pots, \$2 each. Specimens in tubs, \$3.50 and \$5 each.

NEPHROLEPIS TODEAOIDES

London Fern. A good, strong grower and one we think of very highly.

2¼-inch pots.....\$6 per 100; \$50 per 1,000
 4 -inch pots.....\$20 per 100; \$180 per 1,000
 6 -inch pots.....\$6 per doz.
 8 -inch pots.....\$12 per doz.
 9 -inch and 10-inch tubs...\$24, \$30 and \$36 per doz.

NEPHROLEPIS ELEGANTISSIMA IMPROVED

This variety is a greatly improved Elegantissima and shows no tendency to revert to the Boston. This will prove a valuable addition to the crested varieties.

2¼-inch pots.....\$6 per 100; \$50 per 1,000
 4 -inch pots.....\$20 per 100
 6 -inch pots.....\$6 per doz.
 8 -inch pots.....\$12 and \$15 per doz.

 4 -inch pots.....\$25 per 100
 6 -inch pots.....\$6 and \$9 per doz.
 8 -inch pots.....\$12 and \$15 per doz.

NEPHROLEPIS TUBEROSA PLUMOSA

This beautiful fern is quite distinct from all of the other varieties of the Boston Fern in so much that it has been raised from the Japan species Nephrolepis Tuberosa, which type is much hardier than the Exaltata.

The fronds are long and narrow, the pinnules beautiful plumose which are of light color, giving the fronds a beautiful effect on account of the two distinct shades as well as its graceful waviness, and will be found a great and distinct addition to collection ferns.

ASPARAGUS LUTZI

A cross between Asparagus Plumosus and Asparagus Deflexus Scandens. An excellent variety for cutting. The shoots grow five to six feet in length, perfectly upright, without tending to wind. These shoots should be supported by stakes, tying each plant to wire stakes or bamboo canes. It is a big producer, the lateral fronds being of sufficient length for cutting and these come the entire length. No bare stems at the bottom. The variety shows wonderful tendency to flower and seed. It can be grown at a cooler temperature than Plumosus Nanus. It requires less head room. It makes an excellent plant for basket work.
